PREMIUM MOSQUITO ZAPPER

The PREMIUM MOSQUITO ZAPPER uses our proprietary dual-band UV technology. This light attracts pesky mosquitoes and other flying insects inside where they are zapped by a 360° electrical grid.

FEATURES:

- Powered by 120v AC plug-in
- Powerful dual-band UV technology for optimum attraction
- Foldaway handle for versatile hanging
- Elegant design, rugged construction
- Indoor or outdoor use

OPERATION

For best results, use primarily at night. Place trap in high-traffic insect areas, e.g. near trash cans, exposed food, standing water, etc.

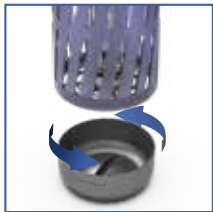

1. Plug the Mosquito Zapper into an AC power source using the included AC cable.
2. Simply press the power button to turn the product ON.
The dual-band UV LEDs (365nm + 395nm) will activate.
3. Press the button again to turn OFF.

MAINTENANCE

Make sure that the Mosquito Zapper is OFF and disconnected from its power source before performing any maintenance or cleaning. Do not use spray cleaners on the Zapper. Only use a damp or dry cloth to clean.

Dispose of the captured insects frequently. To access the insect containment portion of the unit, unscrew the base of the unit by turning counter-clockwise. Dispose of insects and clean interior as needed. Reattach the base to the unit.

CAUTION

- Keep out of reach of children.
- Keep product on flat surface, or hang safely.
- Do not insert fingers or other objects into the electric grid.
- Product is not waterproof, but can be used outdoors. Take appropriate precautions.
- Do not clean with water spray or other liquids. Use damp or dry cloth to clean.
- Keep power cord away from heat, sharp edges, water or other liquids.
- Use only as directed.

FIERCE PROTECTION

Our extensive line of pest defense products helps provide fierce protection indoors, outdoors, and even on-the-go. Visit our website for full information.
