

Fiber Cement Circular Blades

Work. Perform. Outlast.
Limited Lifetime Warranty

Designed for repetitive cuts in fiber cement with power miters or portable circular saws, these specialized Circular Saw Blades with PCD (PolyCrystalline Diamond) faced carbide tips ensure long service life.

A lower number of teeth and deeper gullets produce cleaner, more precise cuts resulting in an accurately matched trim edge and tighter seams. Perfectly tensioned, hardened tool-steel blade assures a flat true run.

| Catalog Number | Description | Diameter Diameter in. (mm) | Teeth | Arbor in. (mm) | RPM |
|----------------|---------------------------------|----------------------------|-------|----------------|------|
| FCCB7 | Fiber Cement Circular Saw Blade | 7-1/4 (184) | 4 | 5/8 (15.9) | 8300 |
| FCCB10 | Fiber Cement Circular Saw Blade | 10 (254) | 6 | 5/8 (15.9) | 5500 |
| FCCB12 | Fiber Cement Circular Saw Blade | 12 (305) | 8 | 1 (25.4) | 4700 |

WARNING:
Fiber cement contains crystalline silica. Respirable silica contained in cutting dust is known to cause cancer.
