### CHARGING INSTRUCTIONS

To charge, connect the headlamp to a power source using the included USB cable.

### CHARGING INDICATOR

The small LED near the charging port serves as a charging status indicator.

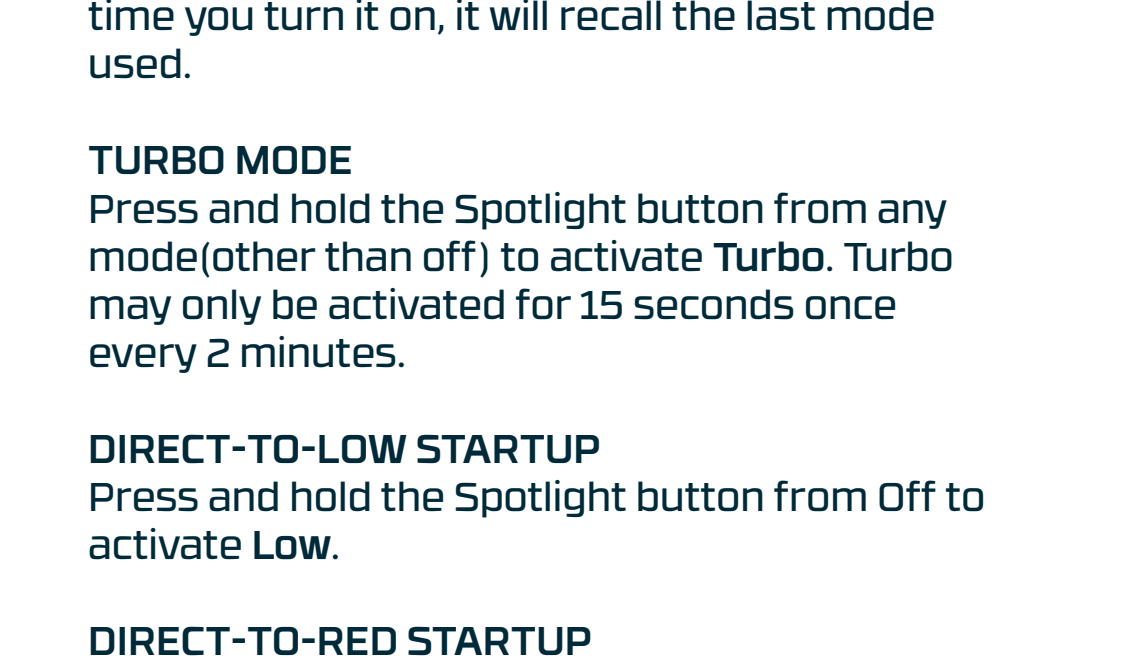

Solid Red: Charging

Solid Green: Fully Charged

## SPOT + FLOOD LIGHT MODES

Ultimate lighting versatility lets you choose between a focused beam, or a wide-area illumination

### OPERATION

Press the Floodlight or Spotlight button repeatedly to cycle through light modes.

FLOODLIGHT: High > Low > Off

SPOTLIGHT: High > Medium > Low > Off

### MODE MEMORY RECALL

Select a light mode and let it run for at least 8 seconds. Next, turn the light off with a single power button press to set the memory. The next time you turn it on, it will recall the last mode used.

### TURBO MODE

Press and hold the Spotlight button from any mode (other than off) to activate Turbo. Turbo may only be activated for 15 seconds once every 2 minutes.

### DIRECT-TO-LOW STARTUP

Press and hold the Spotlight button from Off to activate Low.

### DIRECT-TO-RED STARTUP

Press and hold the Floodlight button from Off to activate Red.

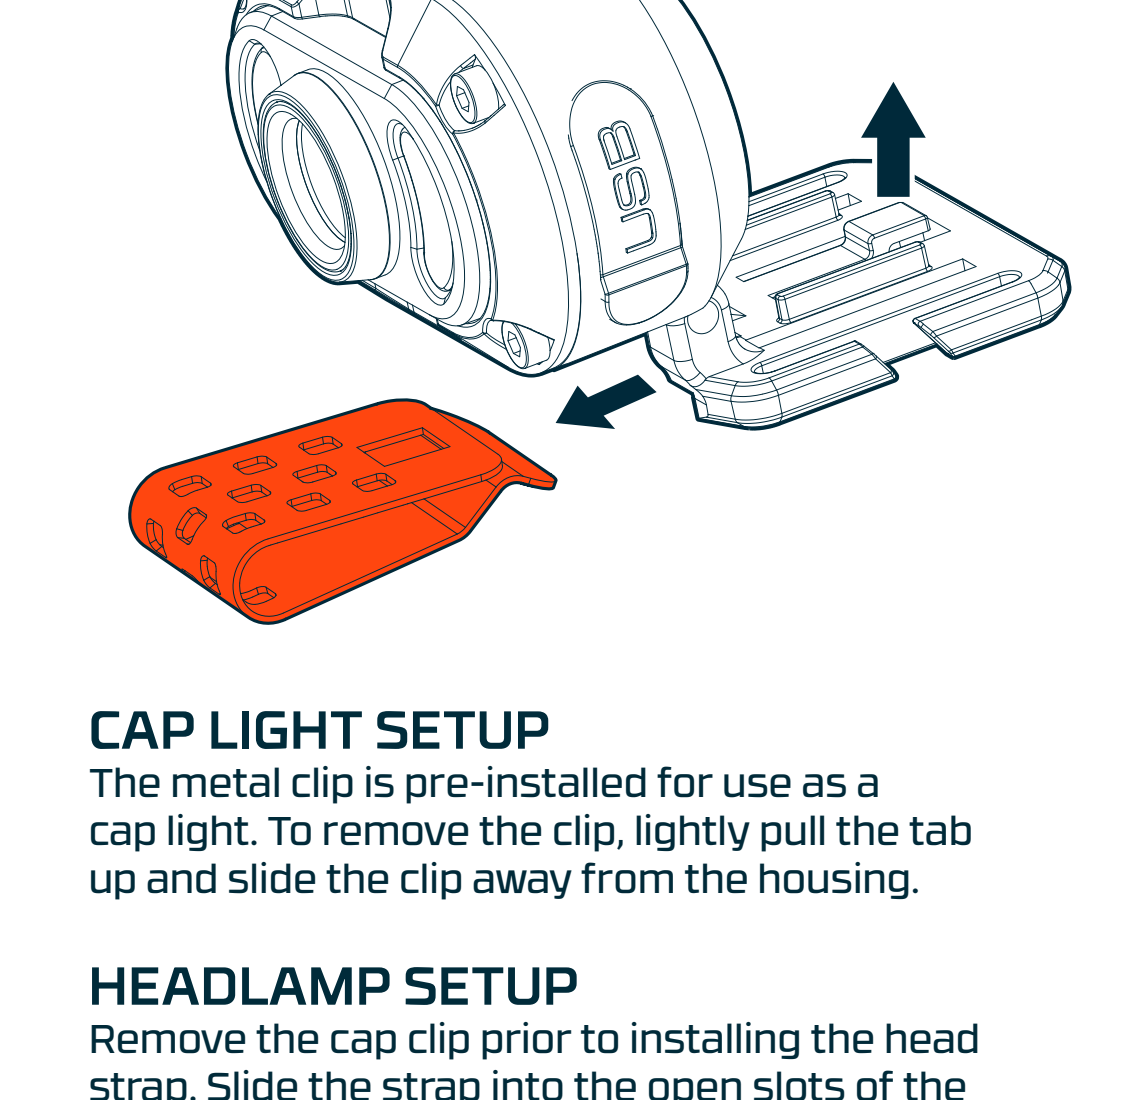

### LOCKOUT MODE

Lockout disables the light from unintentional activation. To turn this feature on or off, rapidly press the power button three times.
