

DESCRIPTION

The HVLP Gun... Without the Gun.

Let's be real. Not every job deserves the whole HVLP circus—compressor roaring, booth tied up, solvent cleanup killing your day. Meet the Seymour AutoFlow™ Spray Gun: the tool that gives you pro-level spray control without dragging out the big guns.

Slide in one of our proprietary AutoFlow cans loaded with the same premium formulas you already trust—like E-Coats, 3-in-1 Primer, Stainless-Blast, and more. Snap it in, pull the two-finger trigger, and unleash a smooth, medium fan spray pattern that covers bigger surfaces way faster and way more evenly than a regular rattle can.

Got a single door or quarter panel? No problem. AutoFlow lets you stay under the 3 oz spray rule, so you can handle touch-ups or spot jobs outside the booth and keep your production line moving. No solvents. No gun cleaning. No sore index finger from pressing a tiny nozzle all day.

DIYers—you'll love it too. Because getting a pro finish shouldn't require an air compressor, a thousand bucks in gear, and half your garage.

AutoFlow: It's not just a spray gun. It's how pros skip the mess and get back to work.

FEATURES

- Feels like a pro spray gun—but works with aerosol cans
- Two-finger trigger for smooth control without finger cramps
- Accepts Seymour's proprietary 16 oz and 20 oz cans
- Top-load design makes swapping cans fast and easy
- Proprietary 45-degree elbow nozzle for comfortable spraying angles
- Medium fan spray tip for bigger jobs and even coverage
- Fully mechanical—no batteries, no electronics, no drama
- Rugged, lightweight plastic body built for daily use
- Compliant with under-3 oz spray rules for outside-booth repairs
- Compatible with Seymour's pro-grade coatings lineup

BENEFITS

- Save time by skipping the full HVLP setup on small jobs
- Spray single panels or spot repairs without tying up the paint booth
- Get a consistent, pro-quality finish without investing in big equipment
- Minimize overspray and improve control compared to regular aerosol cans
- Reduce finger fatigue on longer spray sessions
- Perfect for automotive pros—and DIYers who want pro results
- Affordable enough to keep in every toolbox
- Reusable gun means lower costs in the long run
