

PDP PRO-E®

BRIDGING THE GAP.

FULL SIZE

FEATURES OF THE WALTH ER PDP PRO E:

- 1.) Industry Standard Sights: Customize your shooting experience with ease using industry-standard sights, ensuring precise and accurate aiming.
- 2.) Performance Duty Grip Texture: The PDP Pro-E features a performance duty texture that ensures a secure and comfortable grip, even in challenging conditions.
- 3.) SuperTerrain Slide Serrations: The SuperTerrain Serrations are uniquely designed protruding serrations on the slide, allowing for quicker and more responsive hands-on engagement with the pistol.
- 4.) Polymer Flat-Faced Trigger: The PDP Pro-E is equipped with a flat-faced trigger featuring a polymer trigger-shoe resulting in a consistent and crisp break with every pull. This trigger design optimizes your shooting experience, enhancing accuracy and control for precise shot placement.
- 5.) Aluminum Magwell: Enhance your reload speed and streamline your performance with the aluminum magwell. Designed to provide effortless magazine changes, the magwell optimizes your handling for seamless transitions between rounds, keeping you in the action without missing a beat.
- 6.) Optics Ready: The PDP Pro E is optics ready, allowing you to seamlessly integrate your preferred optic for enhanced accuracy and target acquisition. Whether you're a fan of red dots, holographic sights, or other optics, the PDP Pro E adapts to your needs with ease.
- 7.) 20 Round Capacity: Ensure ample firepower with a generous 20-round magazine capacity, providing you with extra rounds for added confidence in critical situations.
- 8.) Ambidextrous Magazine Release: Conveniently positioned for thumb operation. Reversible for right or left hand operation.
