From Dr. Shade , Quicksilver Scientific Founder

"Your body requires a combination of foundational nutrients to function optimally, yet most multivitamins are poorly absorbed due to cheap delivery methods and use of filler ingredients. Our patented Ultra Vitamin formula is different. We've combined all your key daily nutrients like vitamins A, C, D, E, and K, with the full spectrum of B's and antioxidants using our liquid, patented nanoformulated delivery technology, so that every foundational nutrient is absorbed rapidly and efficiently. This translates to better working systems, enhanced energy production, immune function and a new-found confidence in your daily supplement. My gift to you."
